**A note about Sorbets:**

Sorbets are a water-based product. They provide an alternative to ice cream for those who are allergic to milk or for those who enjoy a fat free frozen treat. COWS Sorbet is fat free, but is **not** sugar free. Customers may ask what the difference is between a sorbet and a sherbet. The answer is that sherbet is a cream-based product and sorbet is a water-based product. Sorbets do not contain eggs.

<b>Mango Sorbet**</b>	Water based, made with fresh pureed mango.
<b>Strawberry Sorbet**</b>	Water based, made with PEI strawberries.
